

ProMatic – the good-value starter model as an introduction to Hörmann's premium quality

ProMatic garage door operators feature the same proven Hörmann technology as all Hörmann premium operators. This guarantees reliable function – at an attractive price.

Even in a garage without a mains connection, you can enjoy the comfort and convenience of an operator. The ProMatic Akku makes it possible. Easy to transport, it can be recharged in a matter of hours, conveniently via the optional solar module.

Garage door operators	ProMatic	ProMatic Akku
Special feature		For garages without power connection
Cycles per day / hour	12 / 5	5 / 2
Pull and push force	600 N	350 N
Peak force	750 N	400 N
Max. opening speed	14 cm/s	13 cm/s
Max. door width	5000 mm	3000 mm
Max. door surface	11.25 m ²	8 m ²

1 Convenient querying of the door position

You can use the optional HS 5 BS hand transmitter at any time to check if your garage door is closed (not for ProMatic Akku).

2 Additional opening height

With the individually adjustable second opening height you can ventilate your garage without opening the door completely (not for ProMatic Akku).

3 Operator light

The LED lighting with energy efficiency class A++ illuminates during door travel.

Standard hand transmitter

surface with plastic caps

ProMatic Akku

If your garage does not have a power connection, the ProMatic Akku is the perfect solution for you. Depending on the frequency of daily door cycles you can operate your operator up to several weeks. Once the battery is empty, you can recharge it via a standard power outlet, for example over night. The optional solar module is particularly convenient. It charges the battery automatically. For further information, please see page 31.
